On Nov. 19th 2018 the City of Boulder tweeted about their Drag Queen Storytime. Was this a joke, an innocent mixup where the adult entertainment actor didn't have time to change into appropriate clothing, or could it be something sinister?
Children are inherently taught that adults are authority figures. Parents expect that storytime adults can be trusted with their children and these activities are done in a safe environment. So why are perverted men put into an authority role over our children? These particular men (Drag Queens) use the term "grooming" when describing this agenda.
Wait, why are perverts grooming our kids?
Welcome to the reality, the "sexualization of our children".

Great turnout of families at Drag Queen Storytime at @boulderlibrary this morning
10:45 AM - 19 Nov 2018 from Canyon Theater - Boulder Public Library

Drag queen shows are considered Adult Entertainment not suitable for children.
What is this Drag Queen child "grooming"?
This is a mental conditioning for children so that they can relate to a perverted society. "Grooming", usually related to child sex offenders, is to prepare victims for illegal sexual relationships. When grooming a child, a predator typically separates the child from his or her peers, gains the victim's trust, provides gifts and extra attention, sexualizes the relationship, and uses fear to ensure the child's continued participation in sexual behaviors.
Sex education is usually very limited and done carefully in a trusted safe environment with older youth. This storytime sex indoctrination is predatory abuse of the pure innocents of the youngest children which is a form of gender bending. It not only destroys the children, it creates a moral decay of the society that then normalizes corruption and allows more to infest. Parents need to take the blinders off and break out of the matrix...

*The cute and cuddly unicorn gains the trust of the parent and makes them feel warm inside, but behind the disguise is a ruthless soul-sucking vampire that preys on the purity, fragility, innocents, and vulnerability of the defenseless child. Absolute evil!*

Do taxpayers know that their paying for the children of their society to be groomed by perverts? As the conditioning continues they will encourage lap sitting and role playing. Parents need to realize that this is not Santa's lap. Caring parents do not put their kids in front of strangers. Unfortunately there will be backlash against this outreach and people will consider this hate, sexism, homophobia, racism, etc., but if we can get back to reality and identify that there is nothing hateful about our complaints and see it for what it really is,
an attack on our children and morals of society. A disgusting decay of humanity.
